

# Tanzania

## Structure

## Key Results in 2018

**Maintaining the role of the platform** within the framework of the new directives and continue public-private dialogue

**Use of coffee data evidence** for advocacy through updating of coffee profiles in the production districts

## Engagement Opportunities

**Invest and strengthen** existing local and international partnerships

Build capacity of farmer cooperatives to work with private and public sectors and **be more active in the value chain**

## Aspirations in 2019

**Continue to facilitate dialogue** among stakeholders and clear grey areas on new directives

Determine and design ways through which private sector can **work with cooperatives at farm gate**

**Blog** – for continuous and real time information exchange among stakeholders

**Give voice to the voiceless** – i.e. farmers – by engaging them more in the dialogue among the stakeholders through zonal meetings and at national level
