Hundreds of thousands growers helped with improved yield and quality premiums. Expanded eco-pulpers in Africa, helped restart coffee industry in South Sudan. New approach to sustainability audits for underserved farmers at no cost to farmer.

Please describe your previous involvement, experience or role with the Global Coffee Platform, its predecessor or the Sustainable Coffee Program and its Steering Committee, or in sustainability topics or other initiatives in the coffee sector so far *

Tangentially involved with 4C Association since its early days. Provided IDH with analytic support and have been a recipient of IDH funding for technical assistance to support coffee growers (as Head of the TechnoServe Global Coffee Practice)

Please indicate major future developments / achievements of the Global Coffee Platform you want to support. Please indicate focus and priorities of related activities. *

I am interested in helping the GCP develop and evolve its strategy for finding the most effective ways to support the coffee sector including the development of a sustainable revenue model for the organization.

What is your vision for a sustainable coffee sector? *

I have a strong interest in developing a sustainable coffee sector that protects the environment, supports future generations of coffee growers and eradicates extreme poverty from the coffee sector by 2030. I have devoted my career to this for the past 15 years.

Potential conflict of interest arising from my Board membership: (Please indicate specific commercial relationship/ interests that might be relevant for your role as Board member)

Enveritas may develop commercial relationships with a range of coffee roasters that are or could be future members of GCP. Enveritas does not, but could in the future, have relationships with donors or potential donors that support GCP. I have provided analytic support to IDH and a range of GCP members regarding sustainability strategy.
