## About GCP Vietnam

**Name:** GCP Vietnam DIỄN ĐÀN CÀ PHÊ TOÀN CẦU

**Established:** 2017

**Role in Government Platform:** GCP Vietnam supports the secretariat and managing committee of the Vietnam Coffee Coordination Board

## Vietnam: GCP Collective Action Plan

### The Problem

- High production costs
- Use of banned agro-chemicals
- Occupational
- Safety & Health
- Climate change

### Our Solution

- ✓ Make coffee farming more profitable by reducing costs and respecting MRLs
- ✓ Address Occupational Safety & Health Risks
- ✓ Improve climate mitigation and adaption

### Our Goal

Ensure the prosperity of 215,000 coffee farmers by 2030, while improving workplace safety and health and conserving the natural resources

## Strategies

- 1

Increase farmers' net income from coffee via improved quality and reduced production costs
- 2

Increase the climate resilience of the Vietnamese coffee sector
- 3

Support the enabling environment for sustainable coffee: strengthen the capacity of GCP Vietnam and the Country Platform – the Vietnam Coffee Coordination Board (VCCB)

Contribution to GCP 2030 Goal **21.5%** of the one million coffee farmers

# Vietnam

## Phase 1 Milestones 2024 -2026

1

- 4 revised training materials (National Sustainability Curricula for Robusta and Arabica, Weed Management, and Integrated Plant Health Management)
- 2 demo plots established
- 500 Master Trainers trained
- 120,000 farmers trained
- 8 school visits / public events

2

- 1 guidance on low carbon emissions coffee production (monocropping vs. intercropping)
- 2 demo plots established
- 500 Master Trainers trained
- 120,000 farmers trained
- 2 school visits / public events

3

- Restructuring of the Vietnam Coffee Coordination Board
- 2 policy papers
- Webinars to share info on EU regulations
